

QUALITY POLICY

Aquarius Rubber (Aust) Pty Ltd trading as Aquarius Distribution's management objective is to maintain market leadership in the manufacture of proprietary injection moulded rubber pipe flashings and custom designed injection and compression moulded components including rubber to metal bonding, based on Quality, Service and Price by meeting and exceeding our Customers' expectations and satisfying all applicable regulatory authorities.

The nature of Aquarius Rubber's business places particular emphasis on experience, expertise, capability, performance, safety, reliability and quality.

To achieve this objective, Company Policy is to:

- *Establish and Maintain a Quality System in compliance with ISO 9001:2015*
- *Focus on our Customers' requirements*
- *Ensure this Policy and Quality System is understood and maintained at all levels of the organisation through training*
- *Manufacture and distribute products that are superior to our competitors*
- *A commitment to supporting ongoing compliance of all certified products with the appropriate Standard.*

Through innovative processes and training programs, we will enhance our quality, improve productivity, reduce waste, continually refine our standards and ensure this policy is understood and implemented throughout the company.

QUALITY IS THE FOCAL POINT OF OUR BUSINESS

Werner Schalle
